During the months of October, November, and December, 1819, when the old law was in lorse, the revenue to the State from the observed industry was \$1,324,22. During the corresponding three months for 1822, and under the new law the revenue was cover \$11,000.

During January, February, and March, 1822, the receipts under the old law were \$8,548,28. Should the ratio of increase hold for the corresponding three months for 1822, the receipts under the old law were \$8,548,28. Should the ratio of increase hold for the corresponding three months of this year and during the other two quarters of the fiscal year there will be, it as easy to see, a very handsome sum turing into the Treasury by October list next.

It should also be remembered in this connection that when the survey of the Virginia poster grounds, now being made, shall have been completed an immense area will be available as a source of revenue which now yields nothing at all. The woman affirmed that she was at the seene of the tragedy Christmas week, and that all of the young men were on quite friendly terms. She claimed that the affair was purely accidental and seement to be very much worried about the probable fate of her brother. Perkins made no attempt to run away after the killing, but immediately told his mother what had happened. Before the Coroner's jury he told a very straight story, saying that Pearson and himself were playing with the pistol, which they thought was not loaded, when it was discharged, the ball taking effect in Pearson's head, killing him instantly.

The verdict of the jury was that Pearson came to his death by a pistol-ball fired by Perkins, and a warrant was immediately issued charging him with the murder. The case will come up before the grand jury of the County Court, which meets next Monday.

In spite of the stormy weather there was a good attendance last evening at the Prices of Money, Bonds, Stocks, Grain,

was a good attendance last evening at the union prayer-meeting at Centenary church. Dr. Whitehead, of the Methodist Church, was the leader. The subject assigned by the Evangelical Alliance was "Nations and Their Rulers." By an unfortunate coincidence none of the speakers appointed by the committee were present. In the emergency the leader called upon Dr. Hoge, who was in the audience, to make an address, which, though called upon so unexpectedly, he did in a most suggestive manner. In rapid review he called up the leading rulers of ancient and modern secular and profane history and showed their influence for good or evil upon the nations they governed, and thus emphasized the great need of prayer for rulers.

The subject for this evening will be "Foreign Missions," and the leader Rev. Jabez Hall, pastor of the Seventh-Street Christian church.

THE INDUSTRIALS,

Among the Industrials American-Star Rofining was the special card, seiling up from 112% to 115 for the common and from 100 to 101½ for the preferred. Manhattan dropped from 155½ to 153½ and quickly rose to 150. The western railway shares were stronger, more particularly the Union-Pacific group, which scored advances of 1 and 1½ per cent. The rise was accounted for by a sudden break in Distilling and Cattle-Feeding from 65½ to 61½ on stop orders. The other Industrials sympathized to the extent of 7½ in Sugar and 1½ in Chicago Gas.
